Past Performance

Program Management (FEMA) - Strategem has played a pivotal role in supporting FEMA's management of grants for emergency alerting and advanced warning communication systems. With expertise in grant solicitation and evaluation, Strategem has facilitated the proposal review and selection process, contributing to the optimal allocation of funds totaling over \$150m.

Strategic Planning (KPMG) - Strategem assisted KPMG in refining their global financial management strategies across the organization. The consultancy designed the global financial reporting and financial analysis models for the organization focusing on the Americas, Asia, and Europe regions ensuring a seamlessly integrated financial approach throughout the organization.

Data Analytics (IRUSA) - Strategem assisted IRUSA in designing data and financial models to improve analysis, decision making, and portfolio management for the organization.

Strategic Planning (Grameen Bank) - Strategem was engaged to lead Grameen Bank’s evaluation of expanding their operations globally to additional markets. The consultancy provided a comprehensive political and economic assessment, stakeholder evaluations, SWOT analysis, ensuring a focused and goal-oriented strategy for Grameen's successful entry into a new market.

Program Management - International Emergency Response (Government of Pakistan)

Strategem played a pivotal role in supporting the Government of Pakistan in its disaster relief efforts following an earthquake in the mountainous region of Kashmir. The consultancy aided in thorough risk assessment and emergency response planning, ensuring a strategic approach to disaster preparedness.
